## **5.6.2020. COVID-19 Legislative Update**

-

### **Legislation**

#### ***Supplemental IV – CARES 2.0. / Phase 4***

Timeline/Process/Politics: While the original plan was for the House to return next week, Whip Clyburn indicated on a call yesterday that **the House will likely return the week of May 18**. A vote in the House does not entail passage of a bill, as Republicans will not likely vote for the bill in its current state and bipartisan negotiations have yet to begin. The more micro issues will not be resolved until the macro issues are (state/local/tribal funding, liability protections, UI extension), and currently, **there's a wide gap between Democrats and Republicans on the big issues. It could be June/July before the parties come to an agreement and pass it.**

Republicans have indicated that they intend to wait to see how programs are working (or not working) before passing another bill. However, **some factors may add pressure to pass a bill sooner than Republicans would otherwise like.** The SBA's Paycheck Protection Program running out of funding, as it created the impetus for a COVID 3.5 package, could do so again. The federal boost to unemployment insurance ends July 31, and thus, could be another driver. The pressure of states', local governments', and tribes' need for additional support could push Congress to move quicker. Additionally, if we continue to see deteriorating economic data (unemployment, jobs numbers, GDP), the White House could step up pressure on Republicans to pass a bill quickly.

The remaining Committees sent over language to leadership yesterday evening, so a bill could be released soon. Speaker Pelosi has been working to set expectations for her caucus and Republicans that the bill will be more tailored than the bill Speaker Pelosi released before Senate passage of CARES.

Policy: The bill currently is in the range of \$1.5-2 trillion. With the caveat that **the bill is still being drafted, no bipartisan negotiations have occurred, and many pieces will change in the coming days**, see below for an outline of the bill.

- State and Local: **\$500 billion for state and local relief**, and additional funding for tribal and rural communities; funding for mass transit, CDBG; funding for **broadband**; additional funding for K-12 and education.
- Public Health: more funding for Medicaid-serving providers, increase in FMAP, funding for a national testing plan, and language around the testing **supply chain**.

- Businesses: **Hazard pay** for frontline workers (though, likely less than what Schumer has proposed); expansion of OSHA for essential workers; **additional PPP** funding with an extension of loans through August and loan term to 5 years; funding for EIDL; expansion of the **employee retention tax credit**.
- Support for Individuals: Second round of **stimulus checks**; **student debt relief**; bans on utility shutoffs; expansion and extension of foreclosure and eviction bans; \$75 billion for a homeowner assistance fund, \$100 billion for a rental assistance fund; extension of federal boost to **unemployment insurance**; childcare assistance for frontline workers.

### **Legislation to Watch:**

Rep. Don Beyer (D) and Sens. Jack Reed (D) and Michael Bennet (D) released a draft [framework](#) that would use automatic triggers to ensure that pandemic and unemployment assistance would continue to flow to individuals even in the absence of action by Congress. The bill aims to tie support to broader labor conditions, rather than acts of Congress.

  - Use their administrative authority to **extend the repayment period** beyond 12 months.
  - Work with Congress and support legislation in Corona 4 that will **place the liability for these payments in Treasury's General Revenue fund**, rather than the Medicare Hospital Insurance and Supplemental Medical Insurance Trust Funds. The expansion of

### **Congress**

Session: While the Senate returned earlier this week, the House has yet to confirm when it will return. Whip Clyburn indicated on a call yesterday that **the House will likely return the week of May 18**.

Hearings and Meetings: The Senate held the first in-person hearings this today and yesterday, with

limited attendance and required social distancing protocols.

- Appropriations: While specific timing continues to be unclear, HAC will likely stick to the original subcommittee order of markups, just shifting everything back. Staff is continuing to work through FY21 and many subcommittees are in the final stages of wrapping up their bills. **Chairwoman Lowey intends to have subcommittees ready to markup mid-May.** The expected order is the following: LHHS; AG; CJS; SFOPs; E&W; DOD; MilCon; FSGG; Interior; THUD; Homeland; and Leg Branch. HAC-D will be limited in marking up the classified portion of the bill, as staff cannot do so remotely and will need to complete it upon return to their offices. **The Senate is scheduled to markup their bills the last week of June.**

- NDAAs: HASC [intends](#) to schedule the markup once the House schedule is clear. SASC is looking to markup NDAAs 2021 the week of June 8, with the goal to have a bill to floor before the 4th of July recess.

Remote voting/virtual protocols: With regard to efforts to develop rules for remote voting and a "virtual Congress," **negotiations in the House have yielded little progress.** Yesterday Leader McCarthy sent a letter to Democratic leaders with the Republican proposal for reopening the House. It offered four strategies outlined below. Today, Leader Hoyer replied in a [statement](#) that the proposal "falls woefully short." Leaders Hoyer and McCarthy continue to head the panel charged with crafting a bipartisan solution (the group includes Reps. McGovern, Lofgren, Cole and Davis). Reaching consensus remains difficult.

McCarthy Proposal

- **“Strategy 1: Modify Existing Practices and Structures”** – Essentially use existing House rules and practices but take steps to reduce congestion in offices/Capitol, install barriers, etc.
- **“Strategy 2: Employ a Phased Return with Committees”** – Each committee would present an outline to the Majority Leader detailing their projected business meetings for the month ahead, along with estimated attendance levels. This information would be used to generate a staggered business calendar, with rotating use of larger committee hearing rooms where necessary. Precedence would be given to bipartisan COVID-19 response measures and other high-priority legislative items.
- **“Strategy 3: Deploy Technology in a ‘Crawl, Walk, Run’ Progression”** – Would require that rigorous testing standards be met, ample feedback be provided, and bipartisan rules of the road be agreed upon and made public to truly safeguard minority rights before widely adopting technology.
- **“Strategy 4: Accelerate Active Risk Mitigation Practices”** – Continue ongoing efforts to distribute Personal Protective Equipment (PPE) kits—including gloves, facemasks, and alcohol-based hand sanitizers—with additional supplies available on demand. Ensure hand sanitizing stations are ubiquitous around the Capitol campus and enhanced cleaning procedures adopted. Keep staffing to a minimum through continued use of teleworking procedures, while the Capitol remains open to only members, required staff, and credentialed press.
